DESCRIPTION

10 H x 8 W Diamond Shield Series Aluminum Deadfront Swing Panel and Accessory Kit is designed to obscure the view and accessibility of circuitry or devices while offering a cosmetically pleasing mounting surface. Spring-loaded releasable hinges make component mounting and panel assembly easy. When properly installed, the panel is securely fixed to the sidewall of the enclosure making load bearing weights distributed throughout the assembly. The hinged suspended panel swings out of the way to provide full access to a panel of PC board mounting.

APPLICATION

Suited for high-end and harsh industrial applications
